The UN Joint Programme on Green Jobs is aimed at promoting more and better jobs for inclusive and sustainable growth in Zambia. The programme is expected to create 5,000 new green jobs by 2017 and improve the quality of 2000 existing jobs. The five-year programme will give support to strengthen enterprise competitiveness and promotion of sustainable businesses among Micro, Small and Medium Enterprises (MSMEs) along the building construction value chain in Zambia. The programme will also help enhance productivity and working conditions as well as deepen and extend social protection floors.

**Goal of JP**  
Sustainable jobs among MSMEs operating in the Zambian building construction industry.

**Expected outcomes**
1. Increased appreciation of green building principles among building industry stakeholders and the general public.
2. A refined industry-specific regulatory framework that stimulates demand among private and public housing developers for environmentally friendly building materials, products and methods.
3. MSMEs have enhanced capacity to effectively participate in the building, construction and green building products and services market.

**Duration**
- 2012 – 2013 (Inception Phase)
- 2013 – 2017 (implementation Phase)

**Total Programme Budget**
