The overarching goal of the ‘UN Joint Support Programme on Accelerating HIV combination prevention in Zambia’ is to contribute to national efforts for reducing new HIV infections by 50 percent by 2015, while scaling up treatment, cares and support. The three-year programme supports the Government of Zambia and partners scale up integrated and comprehensive Anti-Retroviral Treatment (ART) services for adults and children; develop and implement social protection policies and strategies to mitigate the impact of HIV and AIDS among vulnerable groups; and coordinate a harmonised and sustainable multi-sectoral HIV response.

### Goal of JP

The overarching goal of the UN Joint Support Programme is to contribute to the SNDP and NASF overall goal of ‘New HIV infections are reduced by 50% by 2015 while scaling up treatment, care and support’.

### Expected outcomes

1. Scaled up prevention services that enable the reduction of new infections by 50% by 2015.
2. Scaled up integrated and comprehensive ART services for adults and children especially in under-served rural and peri-urban areas by 2015.
3. Government and Partners Develop and implement social protection policies and strategies that mitigate the impact of HIV and AIDS among vulnerable groups by 2015.

### Duration

2012 – 2015

### Total Programme Budget

US$ 20,000,000

### Funds available

US$ 9,000,000

### Funding required

US$ 11,000,000

### Lead UN Agency

UNAIDS

### Participating UN Agencies

### Lead ministry

National AIDS Council

### Other ministries

Ministry of Health, Ministry of Education
Donors

### Geographical coverage

Management of the UN Programme of Joint Support will be linked to the overall co-ordination structure of the UNDAF and the UN Joint Team on AIDS. Under the new UNDAF 2011-15, the UNJT is led by the UNAIDS Country Coordinator (UCC) and UNFPA Representative (Senior Advisor) with oversight from the UN Resident Coordinator.

The UNJT is made up of all UN staff working part- or full-time on HIV. The Team is divided into four Outcome Groups, responding to the four components of the NASF, each convened and chaired by a Lead Agency.

The four technical clusters of the UN Joint Team on AIDS are:

- Prevention: Lead organization UNFPA
- Quality of Life: Lead organization WHO
- Impact Mitigation: Lead organization UNICEF
- Coordination and Management: Lead organization UNDP

### Funding Modality

Parallel funding

Pass-through – Unified Budget Results and Accountability Framework (UBRAF) funding

---

1 Districts where the programme has activities
2 Project Steering Committee, Project Technical committee e.t.c.
3 Pass through, parallel, pooled or combination (please state combination modalities if any)
